AN EVENTFUL YEAR FOR THE STATE

The year just past has been an eventful one for California, and in the face of the greatest disaster the world has ever known, there has been a progress throughout the State that might be classed as phenomenal. According to advices received by the California Promotion Committee from all parts of California, it has been a year of advancement surpassing any previous year. While millions of dollars were lost in the disaster which came to San Francisco and other cities, and an almost unprecedented flood swept over the interior valley, the State's population has materially increased, and development of agricultural lands has proceeded at an unprecedented rate.

Last year's fruit crop of all kinds was one of the largest known in years, and the outlook for the coming season indicates that with two exceptions similar conditions will prevail. While thousands of settlers of all classes have been pouring into the State the extraordinary demand for labor is still unsatisfied, and immediate employment for both men and women, could be given tens of thousands in all lines.

There has been a lack of accommodation in residences in San Francisco, but this condition is being rapidly overcome by the erection of hundreds of new residences. Indications point to a reduction of rents.

In San Francisco reconstruction work has been going on at a marvelous rate. It is estimated that 50,000 men are engaged in the building trades. 17,000 teams are hauling material; thousands of other men are engaged in other reconstruction work. In all forms of rehabilitation during the past year, outside of replenishment of commercial stocks and private homes, it is estimated that $80,000,000 has been expended, and of this $30,000,000 was paid to labor.

OPEN SEASON FOR TROUT

Mat Semichi, deputy game warden, was in town yesterday, under direction from State Fish Commissioner Vogelsang, to inspect the local fish markets. The law requires that striped bass weighing less than three pounds shall not be taken. Fishermen in San Francisco are evading the law and sending smaller fish to the interior towns. No fish of illegal size were found here.

Mr. Semichi has just returned from a trip to the coast-side streams. He says there are no trails along the stream and evidently no fishing has been done. The season for trout will open next Wednesday, and some good sport is anticipated. The later opening of the season insures larger fish, as it is alleged by fishermen that trout grow two inches in length in a month.

WOODSIDE CHIPS

Mr. Welch, the sugar magnate, is erecting a $13,000 building on the old Morris Doyle place at Portola. Mr. Welch's mother will spend the summer there. She is one of the wealthiest women in San Francisco.

Builder's Contracts Filed

The following builder's contracts were filed in the County Recorder's office this week:—

Calwell, Young Company agrees to erect a story and a half frame building in 75 working days for Oscar H Hickie on his property on Monte Avenue, San Mateo, for $3538.

SUIT TO QUIET TITLE.

Mrs. Sarah L. Winchester has commenced a suit against Senator Francis G. Newlands, trustee, to quiet title to a certain tract of land in the First Township. The property comprises portions of the San Mateo and Buri-Buri ranchos.

THE EXPIATORY DEAD.

Inexplicable Fate of the Enemies of Dreyfus Revision.

"Always the dead!" Reinach cried bitterly. "Whenever we find a forgery, a crime, always it is set to the account of a dead man!"

And he drew up a list, horrible in its eloquence, of the dead who strewed the dark path of this monstrous case of crime and cruelty and infamy. Yet there had fallen so many of the enemies of truth and justice that he might have called them the expiatory dead.

Three I have told you of—that poor wretch, Lemercier-Picard, "found dead" in his room in the Rue de Sevres; Henri, "found dead," with a closed razor near by; Felix Faure, "found dead" and smuggled into his palace.

There were many others. Captain d'Attel, who claimed to have heard Dreyfus avow his guilt to Lebrun-Renault the day of his degradation, was "found dead" in a railway train, his corpse blue and already on the way to decomposition, though his journey had lasted but an hour. This pretended confession, which Dreyfus never made, D'Attel confided to his friend, Chaulin-Servinlere, a member of the chamber of deputies. Now, the deputy took train one day to visit his home. An hour later he was "found dead" on the railway tracks between two stations. And Rocher of the prison guards, who also claimed to have heard Dreyfus say, "I am guilty, but I am not the only one!" died, and to this day no one knows where or how. It was as though eternal truth had reached down and slain this lie wherever it lifted its evil head.

The prefect Barreme was summoned to Paris by his government chief. He was "found dead" in his compartment when the train arrived at the Gare St. Lazare. Laurenceau, prefect of the north, was called to Paris to give evidence regarding the spy system on the German frontier. There was no accident on the journey. The next day he was "found dead" in his room at the Hotel Terminus.

Lorimer, one of Henri's most tireless agents of forgery and crime, was "found dead," hanged in a lonely barn; another, Guence, was "found dead" on the floor of his room in Paris. Then there was Munier. His part in the conspiracy had been to falsify the meaning of a cryptic telegram sent by Panizzardi to the Italian government, so that it affirmed the guilt of Dreyfus. And Munier was "found dead" in a railway train. Was it any wonder the martyr's friends began to see in these mysterious and opportune deaths the work of an avenging destiny? With grim emphasis Reinach declared, "Decidement la fatalite est Dreyfusarde!"—the very stars in their courses fought against the lie.—Vance Thompson in Success Magazine.

No. 2967.

Action brought in the Superior Court of the State of California, in and for the County of San Mateo, and the complaint filed in the office of the Clerk of the said County of San Mateo.

IRA S. LILLICK,
Attorney for Plaintiff.

SUMMONS.

The People of the State of California send greeting to: Adolfo Miramontes, Rudolfo Miramontes, Redolfo Miramontes, Rodulfo Miramontes, Rudulfo Miramontes, Rudolpho Miramontes, John Doe and Richard Roe, also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto, defendants.

You are hereby notified that this action is brought by the plaintiff to determine all adverse claims and clouds upon the title to the following described real estate, situate, lying and being in the County of San Mateo, State of California, and bounded and particularly described as follows, to-wit:

Commencing at a point on the northerly line of lot 77 of the Johnston ranch, as per map hereinafter mentioned, distant thereon S. 81° W. 40 chains from stake marked 76 & 77, standing on the westerly line of a road leading from Spanishtown to Pescadero; thence N. 6° W. 17 chains 56 links to the southerly line of a roadway 60 links in width; thence S. 81° W. along said roadway 60 links; thence N. 6° W. still along said roadway, 2 and 96-100 chains; thence 81° W. 29 and 37-100 chains to a stake, marked 70 & 71, standing on the bluff bank of the Pacific Ocean; thence on and along said bluff bank in a southerly and easterly direction to the mouth of the Canada Verde Gulch; thence following said gulch up stream in the center of the same, N. 77° 30' E 4 and 60-100 chains to station; N. 88° 45' E 3 and 37-100 chains to the northwesterly corner of said lot 77; and thence along the northerly line of lot 77, N. 81° E. 8 and 60-100 chains to the place of beginning, being the westerly 4½ and 80-100 acres of lots 71 to 76, inclusive, as per map of the Johnston Ranch, San Mateo County, surveyed by J. J. Cloud, County Surveyor, April, 1879, filed Jan. 25, 1883, also marked "U," on map of said rancho in possession of San Francisco Savings Union.

The action is brought by the plaintiff, who alleges that, by himself and his predecessors in interest, he has been in the actual, exclusive and adverse possession of said real estate continuously for twenty years prior to the filing of the complaint in this action claiming to own the same in fee against the whole world; and the object of the action is to foreclose all the title and interest of the defendants above named in, and to quiet the title of the plaintiff in, and to settle by this suit all questions of the perfect title of the plaintiff in the real estate in the complaint and above described.

That this action is brought, also, under Sections 749, 750, and 751 of the Code of Civil Procedure of the State of California to determine all adverse claims to, and clouds upon, the title of said real estate of said defendants and of all unknown claimants and owners.

Said complaint also alleges that the plaintiff and his predecessors in interest have paid all taxes of every kind levied or assessed against said real estate during the period of five years continuously next preceding the filing of said complaint; and

You are hereby directed to appear and answer the complaint in the above entitled action within ten days (exclusive of the day of service) after the service upon you of this Summons, if served within this county, or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or the said plaintiff will apply to the Court for any other relief demanded in the complaint.

You are further notified that the list herein of defendants following the foregoing words "Send greetings to" is an exact copy of the list of defendants designated in the complaint and in the title of the complaint.

Given under my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 27th day of February, 1907.

Seal of the Superior Court. JOS. H. NASH, Clerk.

Will Advertise Peninsula

The Sounthern Pacific Company is planning, in connection with the opening of the bay-shore cutoff, a campaign of advertising for the peninsula on a most extensive scale. It has been arranged to devote three issues of Sunset Magazine (the issue for June, July and August) to exploiting the resources, advantages and attractions of the country between San Francisco and San Jose. This magazine has a very large circulation. It reaches all parts of America, as well as European countries. It ranks with the leading magazines of the United States and its writers are the best known authors of the west. Such a presentation of the charms and possibilities of this unequaled region as these issue will give will prove a revelation to /all even to our own people.

As an aid to this work, advertising is being asked forthe magazine. San Mateo has contracted for a full page for a year and Burlingame, Redwood City and others of the live towns will be represented.

STATE PARK IS AGAIN OPENED

THE BIG BASIN WILL BE MORE ATTRACTIVE THAN EVER

After being closed for several weeks the wagon road into the California Redwood Park has again been opened to travel. Since the first of April when the new park warden, Senator S. H. Rambo, asumed control of the park, work has been vigorously pushed in order to be ready for a visit of the Los Angeles Chamber of Commerce, which was expected here on the 20th inst., but has since been postponed.

Under the new head radical changes are being made in the care, management and improvement of the park. changes that will appeal to visitors drawn thither by their desire to see the large trees , and also doubly attractive to the lovers of the beautiful. Instead of a tangled labyrinth of undergrowth, pierced here and there by trails, large tracts of the most accessible parts of the park will be brushed out, trees trimmed, growths of oak, madrone, lilac, azaleas and native ferns carefully preserved, all being done in accordance with a previously conceived plan to make one vast park where the contrasts between nature in her wildest moods of licentious, unrestrained growth will contrast sharply with the gentle, restraining hand of intelligent forestry. A pleasing feature of the park is the number of deer who are making it their home, as here they are protected from the ravages of hunters and dogs, though they are somewhat destructive to the young growth.

The streams of the park abound in fish, stocked from the local fish hatchery, but as yet it has not been determined whether or not fishing will be allowed. Should the appropriation prove available, suitable buildings will be erected for the refreshment and entertainmnt of visitors, and a water system for sprinkling the park roads installed. To those who have inhaled the dust of the last two years this will prove pleasant news. With the completion of the broad-gauge to Boulder Creek by the first of June, allowing San Joseans to reach here without change of cars, the Sempervirens club will begin active work on their park and club house, and these beautiful recreation grounds will be visited by thousands of visitors and prove the Mecca foor the lovers of nature in her primeval grandeur.—Santa Cruz Sentenil.

SAN QUENTIN FOR KING.

Judge Buck yesterday sentenced Bert King to San Quentin for fifteen years for burglary. He was caught in the act of burglarizing the station at Menlo Park on March 17th. Archer Kincaid has been appointed to defend him.

MRS. TAYLOR ENDS HER LIFE

TEACHER TAKES POISON WITH FATAL RESULTS

SAN MATEO, April 25.—Inquest over the body of Mrs. Charles Taylor, whose body was found dead in bed by her husband Wednesday night held yesterday by Coroner Plymire, revealed that she had take potassium cyanide, probably with suicidal intent.

What could have been her motive for the deed none of her friends could say, and the members of the family were most reticent and advanced no probable cause.

This young woman, formerly principal of the Homestead School, was happily married. Her disposition was toward melancholy, but although she had told friends in years gone by that death was always ready as a permanent cure for troubles, since her marriage some years ago she had said nothing that might be construed into a threat to commit suicide.

Charles Taylor, the husband, is a bookkeeper holding a responsible position in San Francisco. According to his statement at the inquest, his wife seemed in good spirits the morning he left home. Missing her accustomed evening greeting, he started to search the house, and found her lying dead in their bedroom.

Where she obtained the poison with which to end her life is a mistery, as it is rarely used by suicides and is so deadly that great precautions are exercised in its sale through the drug stores. That she should have chosen thi extremely powerful poison is considered a proof that her determination to end her life was rather the fruit of long continued melancholy rather than a sudden impulse.

The funeral was held yesterday from the family residence in the Taylor addition and the body was taken to San Francisco for cremation.

REDWOOD'S VICTORY.

Last Sunday the Redwood team won its first game by defeating the All Stars of Oakland by a score of 6 to 1. Zamlock the pitcher for the visitors, was hit hard by the local boys, while the visitors only found Charles Curran for three scattered hits.

Considering the fact that the visitors had four State League players, shows that the home boys are able to travel with any team on the coast.

Al Knight a local boy made his initial appearance by hitting Zamlock for two safe hits.

Tomorrow the local boys will cross bats on the localgrounds with the Mayfield boys, who have sent up word that the betting will be 2 to 1—they win. So a lively game is looked for.

The grounds are being put in first-class condition.

THE BREADFRUIT TREE.

Many Ways In Which This Strange Asiatic Plant Is Utilized.

The breadfruit tree is a native of southern Asia, the south Pacific islands and the Indian archipelago. In appearance it resembles somewhat the wild chestnut. It grows to the height of forty or fifty feet and has dark green leaves, many of them two feet in length, which are deeply divided into pointed lobes.

Hidden among the great leaves the breadfruit grows. It is a sorosis, is nearly spherical, often weighs four or more pounds and has a thick yellow rind. This fruit is the chief food of the south sea islanders. They seldom eat a meal without it. The eatable part lies between the rind and the core and when fully ripe is yellow and juicy. It is better for fruit before it has fully matured, and the natives gather it while the pulp is white.

Before it is ready for table use it must be roasted, when it looks like wheat and bread and is both palatable and nutritious. Usually the fruit is cut into three or four slices and roasted or baked in an oven.

Frequently the people of a village join in making a huge oven, in which several hundred breadfruits may be baked at one time. Thus they are all supplied with bread without its costing any of them much labor. Prepared in this way, the bread will keep for weeks.

The breadfruit is in season eight months of the year. When the season finally draws to a close, the last fruits are gathered and made into a sour paste called "mahei." This paste will keep good for months and is made into balls, wrapped in leaves and baked, just as needed.

Bread is not the only product of the breadfruit tree. From it cement, cloth, tinder and lumber are also obtained. A glutinous, milky juice oozes from the trunk of the tree, which makes an excellent cement when boiled with cocoanut oil. From the fibrous inner bark a kind of coarse cloth is made, and the big leaves make good towels. The lumber is used for building houses and many other purposes. Besides all this, the dried blossoms are used as tinder when fires are kindled.

POINTED PARAGRAPHS.

Some people cry loudly for justice when mercy is really what they want.

There is never much kicking about the rules of the game by those who happen to win.

A young person's kind of wit is usually the kind that gives an old person nervous prostration.

If a man tells a lie, which is predominant—his remorse at having told it or his pride in having told one that passed for the truth?

You may think you are lonesome, but you will never know what lonesomeness is until you are on your deathbed and realize that you are going alone.

Every boy who plays around railroad yards and makes a practice of jumping on trains imagines he is a great deal more clever than the one legged men of his acquaintance ever were.—Atchison Globe.

Her Dear Friend.

Clara—I wish I could believe what he says, but— Maud—What does he say? Clara—Why, he says he loves me, and he has known me only two days. Maud—Well, perhaps that's the reason.—Philadelphia Inquirer.

Hardly a Compliment.

Maid—A gentleman to see you, madam. Mistress—Is it, by chance, my cousin the professor? Maid—No, he doesn't look as clever as that. He looks more as though he might propose to you.—Fliegende Blatter.

THE GREAT "WAR COMET."

Its Fiery, Spreading Tail Was Fifty Million Miles Long.

The wonderful "war comet" of 1861 sprang so suddenly into view and blazed with such unexampled brilliancy as to astonish the astronomers and frighten those unlearned in cometary lore half out of their wits. The unlearned declared that the civil war, which was just getting well under headway, must have something to do with it. However this may be, it burst forth, unheralded and uninvited, shining with greater brilliancy and magnitude than any phenomena of a similar nature which that generation had ever seen.

On the night of July 3 of that year it exhibited a most wonderful spectacle. In the evening the nucleus did not appear to be larger than a star in the first or second magnitude. As the small hours of the morning approached, however, the nucleus visibly increased in both magnitude and brilliancy. The tail waved back and forth over our little world in a most threatening manner, at times sending rays almost to the zenith. On the morning of July 5 the astronomers announced through the daily papers that the head of the great comet was only separated from the earth by a distance of 12,000,000 miles. According to the report sent out from the Cambridge observatory, the comet appears to have passed its ascending node between the 27th and the 29th of June in longitude 279 degrees, the longitude of the earth being 277 degrees at the same time.

On Oct. 10 its tail extended over a space of 50,000,000 miles and at several points was not less than 10,000,000 miles in width.

At first it was generally conceded that it was the famous comet of 1556, the one which caused the Emperor Charles V. of France to resign his imperial throne, he taking it to be a warning from God. All surmises were subsequently set at rest by the discovery that it was the famous Thatcher comet, discovered by Professor A. F. Thatcher at the Rutherford observatory in New York city.

On the Rack.

The expression "putting a witness on the rack" has an ancient origin. The courts had an unpleasant way of putting a refractory or unsatisfactory witness on the rack, which was an open wooden frame, upon which was laid the victim. His wrists and ankles were tied to two rollers at opposite ends of the frame. The rollers were then moved with levers until the tension caused the body to rise level with the frame, and then questions were addressed to the witness. If he still proved silent or if his memory needed refreshing, the rollers were moved slowly until the wretch's bones started from the sockets.

Granite, the Bedrock of the Earth.

Granite is the bedrock of the world. It is the lowest rock in the earth's crust and shows no signs of animal life. It is from two to ten times as thick as all the other layers of rocks combined. No evidences of life of either animal or vegetable are apparent in granite. The presence of lime is due to animal life. Some scientists assert that all the lime in the world has at some time been a part of some animal. This includes human beings.
